

1 **Abstract of Disclosure**

2 A controller is disclosed for use in a massage chair with vibrators and
3 capable of providing games. The controller includes a display, an input
4 device for input of commands, a selection module connected with both of
5 the display and the input device, a game module connected with the
6 selection module in order to provide various games and a massage
7 module connected with the selection module on one hand and connected
8 with the vibrators on the other hand so as to actuate various combinations
9 of the vibrators.
